

2018 COURSE INFORMATION FOR CRANE - C2

Crane - C2

TLILIC3008 Licence to operate a slewing mobile crane up to 20 tonnes (C2)

Course Delivery

FACE TO FACE - at our site in Wetherill Park (see our course calendar for scheduled dates)

FACE TO FACE - at your site (providing you have adequate training areas, equipment/resources and min 6 participants)

Course Duration

5 days (4 days training & 1 day assessing)

Course Cost

\$1,495 per person gst-free

[A SafeWork NSW licence fee is additional and payable by each applicant at an Australia Post Office]

Course Prerequisites

Participants must be over 18 years of age, be able to speak and understand English; understand technical concepts and mathematical formulas and equations; and provide suitable 100 points identification. If a participant fails to bring 100 points of identification a re-booking fee of \$100 will be charged for assessment to be re-scheduled.

Course Overview

This C2 crane course is for people who need to operate a mobile slewing crane, up to 20 tonnes (C2). This crane licence also covers the requirements for operating vehicle loading cranes (such as Hiabs) over 10 metre tonnes (CV), and non-slewing mobile cranes over 3 tonnes (such as Frannas, Telehandlers and Reach Stackers) (CN). Along with suitable plant specific training, this crane licence provides you with options to work in a number of different industries and job roles, and is a great base for eventually moving up to operating larger capacity cranes.

Course Content

Theory and practical competency progress assessments are conducted during the course and a HRW licence assessment is conducted on the final day if you have reached the required skill level.

- Theory and practical crane training.
- Compliance with WHS licensing legislation.
- Communicate and work safely with others in the work area.
- Risk assessment and management procedures (particular awareness of the risks associated with overhead powerlines/electrical cables, ground conditions, crane tipping and demolition sites).
- Pre-operational check, positioning, stabilising, set up and operation of a mobile crane, signalling and working with a dogger to move loads.
- Performing load and lifting gear calculations, and reading of load charts.

Course Outcomes

On successful completion of crane training and assessment, participants will be issued a Statement of Attainment for TLILIC3008 Licence to Operate a Slewing Mobile Crane (up to 20 tonnes) and be eligible to apply for a SafeWork NSW issued National Licence to Perform High Risk Work (Class C2).

HRW Licences are valid for 5 years from the date of issue. To apply for your HRW licence, you must lodge your HRW assessment paperwork and application form at an Australia Post outlet together with a passport sized photo and pay the prescribed processing fee within 60 days of completion of your final HRW assessment. Failure to

2018 COURSE INFORMATION FOR CRANE - C2

lodge your paperwork on time will result in you being an unlicensed operator and further training and/or assessing fees will apply after the 60-day period.
